

Letter of Recommendation

To Whom It May Concern,

I am pleased to write this letter of recommendation for Mr. Prateek Kumar Verma, who has been working with Bunge India Pvt. Limited from 17 July 2023 as an Automation Developer. During his time at our company, Prateek has demonstrated exceptional technical skills, a commitment to continuous learning, and a proactive approach toward solving complex problems, particularly in the field of Robotic Process Automation (RPA) and bot development.

As RPA-CI Lead, I have closely observed Prateek's work ethic, which is characterized by his dedication to delivering high-quality solutions. He has successfully implemented several automation processes, showcasing his ability to manage projects independently while collaborating effectively with cross-functional teams. One of his notable projects involved creating bots that mimic human activities, which has streamlined operations and significantly enhanced our efficiency. His attention to detail and ability to grasp complex concepts quickly have been key to his success.

Prateek is also a highly motivated individual with a clear vision for his future. He has expressed a strong desire to transition into advanced areas of technology, and his passion for broadening his expertise is evident in his eagerness to learn and apply new techniques. I am confident that pursuing further studies in this field will help him expand his knowledge and contribute to his long-term professional growth.

In addition to his technical abilities, Prateek possesses strong interpersonal skills. He is a team player who fosters positive relationships with his colleagues and consistently seeks opportunities to contribute beyond his immediate responsibilities. His ability to adapt to new challenges and his enthusiasm for innovation make him an invaluable asset to our team.

I strongly believe that Prateek has the potential to excel in your post graduate program. His academic background, combined with his professional experience and determination to succeed, will enable him to make meaningful contributions in advance fields of technology.

Please feel free to contact me at nagendra.bhagath@bunge.com or +91 97034 42215 if you require any further information regarding Prateek's qualifications.

I wholeheartedly recommend Prateek for admission to your esteemed university and wish him continued success in his academic and professional pursuits.

Sincerely,

Nagendra Bhagath Singh Bondili

RPA-CI Lead
